School Software design and Development

<u>**Software Modules**</u>

Human Resource

This section is for the teaching personnel. Everything from their employment details to personal information as well as class allocation will be covered here.

Time Table Management

This section allows you to monitor the time table of classes. You can monitor what segment is being taught to any particular batch at any given time. This will help you to keep track of the portions that are being taught and anything they might have missed out on.

Finance

Everything fee related comes under this section. Parents can log in to find the details about their kid's fee paid and also when the next instalment is due.

Exam Management

Exam time is a hectic period. There will be some many things to manage. This section will contain all information regarding the exams including the schedules, portion for the exams and even their reports.

Leave Management

This section covers comprehensively the leaves taken by both the students as well as the faculty. In addition to the number of leaves taken, you can also find the particular reason for each leave of absence.

Report Generation

Report generation allows you to create a report of student's fee remittance. This report will include all the details including the fee paid, balance left and more.
